Genaro Suárez

Research Talks

(as of October 19, 2026)

Fifty-one research talks (26 invited presentations) at national and international conferences and seminars.

Press Conferences

Jan. 09, 2024 New Orleans, LA, USA — **(1).** Press conference **Extrasolar Worlds Exhibit Exotic Sandy Clouds at the Equator**, 243rd AAS Meeting, New Orleans Ernest N. Morial Convention Center.

Invited Talks

Conferences

Jun. 06, 2026 Phoenix, AZ, USA — **(4).** "Cloudy Extrasolar Skies in the JWST Era and their Dependence on Atmospheric Properties", 247th AAS Meeting, Phoenix Convention Center.

Jun. 26, 2025 Cork, Ireland — **(3). Review talk:** "What Observations Have Taught us About 4D Extrasolar Atmospheres?", 2025 European Astronomical Society Annual Meeting, University College Cork.

May 30, 2024 New York, USA — **(2).** "Explaining the Diversity of Cold Exoworlds with JWST", 2024 New York Area Exoplanets Meeting, Flatiron Institute.

Jan. 29, 2024 New York, USA — **(1).** "Explaining the Appearance of Extrasolar Worlds", ExoNYC Meeting, Flatiron Institute.

Seminars

Nov. 09, 2026 New Haven, CT, USA — **(21).** "Understanding Substellar Atmospheres Through Silicate Clouds", Yale University.

Oct. 13, 2026 — **(20).** "Understanding Substellar Atmospheres Through Silicate Clouds", Institute of Astronomy, UNAM.

Jun. 25, 2026 Shanghai, China — **(19).** "Understanding Substellar Atmospheres Through Silicate Clouds", Tsung-Dao Lee Institute.

May. 19, 2026 Baltimore, MD, USA — **(18).** "Understanding Substellar Atmospheres Through Silicate Clouds", Space Telescope Science Institute.

Apr. 06, 2026 Poughkeepsie, NY, USA — **(17).** "Explaining the Appearance of Extrasolar Worlds", Physics & Astronomy, Vassar College.

Mar. 11, 2026 Piscataway, NJ, USA — **(16).** "Explaining the Appearance of Extrasolar Worlds", Department of Physics and Astronomy, Rutgers University.

Oct. 28, 2024 Virtual — **(15).** "Explaining the Diversity of Extrasolar Worlds", Steward/LPL Origins Seminar.

Jul. 01, 2024 Pasadena, CA, USA — **(14).** "Explaining the Diversity of Cold Exoworlds with JWST", California Institute of Technology.

Apr. 02, 2024 Amherst, MA, USA — **(13).** "Explaining the Appearance of Extrasolar Worlds", Amherst College.

Mar. 21, 2024 New York, USA **(12).** "Explaining the Appearance of Extrasolar Worlds", Columbia University.

Dec. 18, 2023 Montevideo, Uruguay **(11).** "Entendiendo la Diversidad de las Atmósferas Subestelares", Universidad de la República.

Aug. 25, 2023 Virtual **(10).** "Physical Properties and Chemistry of Silicate Clouds in Extrasolar Atmospheres", School of Mathematical and Physical Sciences, Macquarie University.

Jul. 04, 2023 Edinburgh, UK **(9).** "Silicate Clouds in Extrasolar Atmospheres: Equatorial Latitudes are Cloudier", Royal Observatory, The University of Edinburgh.

Aug. 24, 2022 Ensenada, BC, Mexico **(8).** "Silicate Clouds in Extrasolar, Ultracool Atmospheres", Institute of Astronomy, UNAM.

Jun. 14, 2022 Virtual **(7).** "Emergence and Sedimentation of Silicate Clouds in L Dwarfs, and Analysis of the Full Field Dwarf Spectroscopic Sample", Max Planck Institute for Astronomy.

Feb. 16, 2021 Virtual **(6).** "An Accurate Look at the L-to-T Spectral Type Transition", NRC Herzberg Astronomy and Astrophysics Research Centre.

Apr. 08, 2019 Pasadena, CA, USA **(5).** "System IMF and Dynamics of 25 Ori", California Institute of Technology.

Mar. 14, 2019 Morelia, Mich, Mexico **(4).** "System IMF and Dynamics of 25 Ori", Radio Astronomy and Astrophysics Institute, UNAM.

Apr. 18, 2018 Ensenada, BC, Mexico **(3).** "Towards a Complete Study of the System IMF and Early Kinematics Evolution of the 25 Orionis Stellar Group", Institute of Astronomy, UNAM.

Nov. 03, 2016 Mérida, Venezuela **(2).** "Photometric Determination of the System Initial Mass Function of the 25 Orionis Group", Centro de Investigaciones de Astronomía.

Oct. 19, 2016 Mérida, Venezuela **(1).** "Towards a Complete Study of the IMF and Early Kinematics Evolution of the 25 Orionis Stellar Group", Centro de Investigaciones de Astronomía.

Contributed Talks

Jul. 28, 2026 Pacific Grove, CA, USA **(20).** "Silicate Clouds as Drivers of Spectral Diversity in Ultracool Atmospheres", Charting Substellar Worlds conference at Asilomar.

Jun. 18, 2026 Tokyo, Japan **(19).** "Silicate Clouds as Drivers of Spectral Diversity in Ultracool Atmospheres", Cool Stars 23, TOC Ariake.

May. 15, 2026 New York, NY, USA **(18).** "Spectral Energy Distribution Analyzer (SEDA) for Forward Modeling and Empirical Analysis of Ultracool Objects", III New York Area Exoplanets Meeting, American Museum of Natural History.

Apr. 29, 2026 Newark, DE, USA **(17).** "Identifying Cloudy Extrasolar Skies with JWST/MIRI Imaging", Brown Dwarf to Exoplanet Connection Conference, University of Delaware.

Jun. 07, 2026 Phoenix, AZ, USA **(16).** "Predicted Near- to Mid-infrared Spectral Signatures of a Cold Brown Dwarf with Potential Auroral Heating", 247th AAS Meeting, Phoenix Convention Center.

May 22, 2025 New York, USA **(15).** "Cloudy Extrasolar Skies in the JWST Era", 2025 New York Area Exoplanets Meeting, Flatiron Institute.

Jan. 15, 2025 National Harbor, MD, USA **(14).** "Spectral Energy Distribution Analyzer (SEDA) for Forward Modeling of Ultracool Objects", 245th AAS Meeting, Gaylord National Resort & Convention Center.

Jun. 28, 2024 San Diego, CA, USA **(13).** "Explaining the Diversity of Cold Exoworlds with JWST", Cool Stars 22, University of California San Diego.

Jan. 09, 2024 New Orleans, LA, USA **(12).** "Equatorial Latitudes in Extrasolar Atmospheres are Cloudier", 243rd AAS Meeting, New Orleans Ernest N. Morial Convention Center.

Dec. 08, 2023 Puerto Natales, Chile **(11).** "Understanding the Diversity of the Coldest Extrasolar Atmospheres with JWST", Open Problems in the Astrophysics of Gas Giants, Hotel Remota.

Nov. 28, 2023 Montevideo, Uruguay **(10).** "Complexity of Dust Clouds in Extrasolar Atmospheres", XVII Latin American Regional IAU Meeting, Intendencia de Montevideo.

Jun. 30, 2023 Exeter, UK **(9).** "Equatorial Latitudes in Extrasolar Atmospheres are Cloudier", Exoclimes VI, The University of Exeter.

Jan. 10, 2023 Seattle, WA, USA **(8).** "Gravity-dependent Sedimentation of Dust Clouds in Ultra-cool Atmospheres", 241st meeting of the American Astronomical Society, Washington State Convention Center.

Jul. 04, 2022 Toulouse, France **(7).** "Emergence and Sedimentation of Silicate Clouds in Substellar Atmospheres Using Spitzer IRS Spectra", Cool Stars 21, Pierre Baudis Convention Centre.

Oct. 08, 2021 Virtual **(6).** "Understanding the Origin of the Mass Spectrum in Stellar Associations", LXIV Congreso Nacional de Física.

Oct. 21, 2019 Newark, DE, USA **(5).** "Initial Mass Function of 25 Orionis down to the Planetary-Mass Domain", Brown Dwarf to Exoplanet Connection Conference, University of Delaware.

Aug. 09, 2018 Zacatecas, Zac., Mexico **(4).** "Structure and Star Formation History of the Orion Complex", VII Reunión de Estudiantes de Astronomía, Consejo Zacatecano de Ciencia, Tecnología e Innovación (COZCyT).

May. 14, 2018 Cozumel, Yuc., Mexico **(3).** "System IMF of the 25 Orionis Stellar Group", Interstellar: The matter, Grand Park Royal Cozumel.

Oct. 11, 2017 Monterrey, NL, Mexico **(2).** "Photometric Determination of the System IMF of the 25 Orionis Stellar Group", XXVI Congreso Nacional de Astronomía, CINTERMEX.

Oct. 04, 2016 Cartagena, Colombia **(1).** "Towards a Complete Study of the IMF of the 25 Orionis Stellar Group", XVII Latin American Regional IAU Meeting, Intendencia de Montevideo.

Lightning Talks

Jun. 06, 2026 Phoenix, AZ, USA **(5).** "Predicted Near- to Mid-infrared Spectral Signatures of a Cold Brown Dwarf with Potential Auroral Heating", 247th AAS Meeting, Phoenix Convention Center.

Nov. 14, 2025 New York, USA **(4).** "JWST Observations of Brown Dwarfs", Pizza Lunch at Columbia University.

Mar. 11, 2025 New York, USA **(3).** "Diversity of Brown Dwarf Atmospheres", Physical Sciences Jamboree, AMNH.

May 30, 2018 Ensenada, BC, Mexico **(2).** "Towards a Complete Study of the System IMF and Early Kinematics Evolution of the 25 Orionis Stellar Group", Jamboree at Institute of Astronomy, UNAM.

Jul. 28, 2014 Park City, Utah, USA **(1).** "Towards a complete study of the 25 Ori Group", SDSS-III and SDSS-IV Collaboration Meetings hosted by the University of Utah.
