

Genaro Suárez

Curriculum Vitae (as of September 2, 2026)

Current Position

Postdoctoral Fellow
Department of Astrophysics,
American Museum of Natural History
New York, NY, USA

e-mail: gsuarez@amnh.org
gsuarez2405@gmail.com
Cellphone: +1-347-814-3978

Research Interests

Brown dwarf and giant exoplanet atmospheres, clouds in substellar atmospheres, substellar variability, star and brown dwarf formation, initial mass function

Education

- Jan. 2015–Feb. 2019 **Ph.D. in Astrophysics.**
Ensenada, Mexico Institute of Astronomy, Universidad Nacional Autónoma de México
Thesis: “Towards a Complete Study of the Initial Mass Function and Early Kinematics Evolution of the 25 Orionis Stellar Group”.
Advisors: Dr. Carlos. G. Román Zúñiga, Dr. Juan J. Downes
Graduated with Honors and nominated for the “Medalla Alfonso Caso” by UNAM.
Best PhD Thesis in Astronomy in Mexico defended in 2019 or 2020 awarded by the Sociedad Mexicana de Física. [PDF](#)
- Jan. 2013–Jan. 2015 **M.Sc. in Astrophysics.**
Ensenada, Mexico Institute of Astronomy, Universidad Nacional Autónoma de México
Thesis: “Towards a Complete Study of the Initial Mass Function and Early Kinematics Evolution of the 25 Orionis Stellar Group”.
Advisors: Dr. Carlos. G. Román Zúñiga, Dr. Juan J. Downes
Awarded the “Premio Paris Pişmiş” by the Institute of Astronomy, UNAM and nominated for the “Medalla Alfonso Caso”. [PDF](#)
- Aug. 2007–Jan. 2013 **B.Sc. in Physics.**
Zacatecas, Mexico Unidad Académica de Física, Universidad Autónoma de Zacatecas
Thesis: “Spectroscopic and Photometric Study of the Ionized Regions Sh2-90 and Sh2-187”.
Advisors: MSc. Marco A. Moreno Corral, Dr. Alejandro González Sánchez
Awarded the “Premio Paris Pişmiş” by the Institute of Astronomy, UNAM. [PDF](#)

Research Experience

- Sep. 2022–present **Postdoctoral Fellow** (Supervisor: Dr. Jacqueline Faherty)
New York, USA Department of Astrophysics, American Museum of Natural History
- Sep. 2019–Sep. 2022 **Postdoctoral Fellow** (Supervisor: Dr. Stanimir Metchev)
London, ON, Canada Department of Physics & Astronomy, The University of Western Ontario
- Jan. 2015–Feb. 2019 **Ph.D. Student**
Ensenada, Mexico Institute of Astronomy, Universidad Nacional Autónoma de México
Six international research visits.

Grants and Fellowships ([PDF](#))

Total amount of USD $\approx$ 1.5M awarded through grants and fellowships from diverse institutions (Co-I amounts reflect funding allocated to my research program), plus >USD \$80k for professional activities. Selected examples:

- 2026 JWST Cycle 5 GO 11448 program (co-PI): USD \$658,476.
- 2025 JWST Cycle 4 GO 7686 program (co-I): USD \$25,000.
- 2024 JWST Cycle 3 GO 5474 program (PI): USD \$291,000.
- 2024 JWST Cycle 2 GO 4668 program (co-I): USD \$195,000.

2023 JWST Cycle 2 Survey 3930 program (co-PI): USD \$200,000.
2013–2019 Mexican CONACYT Fellowships: USD \$51,000.

Publications (PDF ADS ORCID Google Scholar Scopus Zotero)

Total Publications: 80 peer-reviewed journal articles (9 first author, 11 second/third author, and 60 co-author).

Nine first-author articles. Selected papers:

- 2026 **SEDA: Spectral Energy Distribution Analyzer for Forward Modeling and Empirical Analysis of Ultracool Objects**
Genaro Suárez, Kelle Cruz, Jacqueline K. Faherty, *et al.*
2026, JOSS, submitted.
- 2025 **Diversity of Cold Worlds: Predicted Near-to-mid-infrared Spectral Signatures of a Cold Brown Dwarf with Potential Auroral Heating**
Genaro Suárez, Jacqueline K. Faherty, Ben Burningham, *et al.*
2025, ApJ, 993, 165. [DOI](#) [ADS](#)
- 2023 **Ultracool Dwarfs Observed with the Spitzer Infrared Spectrograph: Equatorial Latitudes in L Dwarf Atmospheres are Cloudier**
Genaro Suárez, Johanna Vos, Stanimir Metchev, Jacqueline Faherty & Kelle Cruz
2023, ApJL, 954, 6S. [DOI](#) [ADS](#)
- 2023 **Ultracool dwarfs observed with the Spitzer Infrared Spectrograph - III. Dust grains in young L dwarf atmospheres are heavier**
Genaro Suárez and Stanimir Metchev
2023, MNRAS, 523, 4739. [DOI](#) [ADS](#)
- 2022 **Ultracool Dwarfs Observed with the Spitzer Infrared Spectrograph. II. Emergence and Sedimentation of Silicate Clouds in L Dwarfs, and Analysis of the Full M5–T9 Field Dwarf Spectroscopic Sample**
Genaro Suárez and Stanimir Metchev
2022, MNRAS, 513, 5701. [DOI](#) [ADS](#)
- 2019 **System IMF of the 25 Ori group from planetary-mass objects to high-intermediate-mass stars**
Genaro Suárez, Juan José Downes, Carlos Román-Zúñiga, *et al.*
2019, MNRAS, 486, 1718. [DOI](#) [ADS](#)

Eleven second/third-author articles. Selected papers:

- 2018 **The APOGEE-2 Survey of the Orion Star Forming Complex II: Six-dimensional Structure**
Marina Kounkel, Kevin R. Covey, **Genaro Suárez**, *et al.*
2018, AJ, 156, 84. [DOI](#) [ADS](#)

Sixty co-author articles. Selected collaborations:

- 2025 **Detection of the Silicate Precursor Silane in a Cold, Low-Metallicity Brown Dwarf**
Jacqueline Faherty, Aaron M. Meisner, Ben Burningham, Channon Visscher, Michael Line, **Genaro Suárez** *et al.*
2025, Nature, 628, 511. [DOI](#) [ADS](#)
- 2024 **Methane emission from a cool brown dwarf**
Jacqueline Faherty, Ben Burningham, Jonathan Gagné, **Genaro Suárez** *et al.*
2024, Nature, 628, 511. [DOI](#) [ADS](#)
- 2021 **Weather on Other Worlds. V. The Three Most Rapidly Rotating Ultra-cool Dwarfs**
Megan E. Tannock, Stanimir Metchev, Aren Heinze, Paulo A. Miles-Páez, Jonathan Gagné, Adam Burgasser, Mark S. Marley, Dániel Apai, **Genaro Suárez**, Peter Plavchan
2021, AJ, 161, 224. [DOI](#) [ADS](#)

Five first-author conference proceeding.

Awards and Honors

- 2026 **Nominee** for the Blavatnik Regional Awards for Young Scientists.
- 2021 **Best PhD Thesis in Astronomy in Mexico (2019 and 2020).** [PDF](#)
By the Sociedad Mexicana de Física/División de Astrofísica.
- 2019 and 2015 **UNAM grant.**
For on-time completion of Master's and Ph.D. programs at UNAM.
- 2019 and 2015 **Nominee** for the Medalla Alfonso Caso by UNAM. [PDF](#)
For exceptional master's and PhD thesis defenses.
- 2016 and 2014 **Premio Paris Písmiş.** [PDF](#) [PDF](#)
Excellence Award for undergraduate/graduate students by the Institute of Astronomy, UNAM.

Research Talks and Posters (PDF) (PDF)

Forty-nine research talks (23 invited presentations) at national and international conferences and seminars. Selected talks:

- Jun. 25, 2026 **Invited seminar** "Understanding Substellar Atmospheres Through Silicate Clouds",
Shanghai, China Tsung-Dao Lee Institute.
- Jun. 18, 2026 **Contributed talk** "Silicate Clouds as Drivers of Spectral Diversity in Ultracool Atmospheres",
Tokyo, Japan Cool Stars 23, TOC Ariake.
- May. 19, 2026 **Invited seminar** "Understanding Substellar Atmospheres Through Silicate Clouds",
Baltimore, MD, USA Space Telescope Science Institute.
- Jun. 26, 2025 **Invited review talk** "What Observations Have Taught us About 4D Extrasolar Atmospheres?"
Cork, Ireland at the 225 European Astronomical Society Annual Meeting.
- Jul. 01, 2024 **Invited talk** "Explaining the Diversity of Cold Exoworlds with JWST",
Pasadena, CA, USA California Institute of Technology.
- Jun. 28, 2024 **Contributed talk** "Explaining the Diversity of Cold Exoworlds with JWST" at Cool
San Diego, USA Stars 22.
- Jan. 9, 2024 **Press conference** "Extrasolar Worlds Exhibit Exotic Sandy Clouds at the Equator" at
New Orleans, USA the 243rd AAS meeting.
- Jun. 30, 2023 **Contributed talk** "Equatorial Latitudes in Extrasolar Atmospheres are Cloudier" at
Exeter, UK Exoclimates VI.
- Jul. 04, 2022 **Contributed talk** "Emergence and Sedimentation of Silicate Clouds in Substellar
Toulouse, France Atmospheres Using Spitzer IRS Spectra" at Cool Stars 21.
- Participation in 29 conferences, 7 congresses, 11 summer schools, and 9 workshops.**
- Eleven first-author posters in conferences.** Selected posters:
Jul. 7–11, 2025 "Cloudy Extrasolar Skies in the JWST Era" at the Exoclimates VII conference.
Montreal, Canada
- Dec. 12–15, 2022 "Gravity-dependent Sedimentation of Dust Clouds in Ultra-cool Atmospheres" at the
Baltimore, MD, USA First Science Results from JWST Conference.
- Jun. 05–09, 2017 "Photometric Determination of the IMF of the 25 Orionis Stellar Group" at the
Florence, Italy conference Francesco's Legacy: Star Formation in Space and Time.

Awarded Telescope Time and Observing Experience (PDF)

Observing programs across multiple facilities, including 21 accepted JWST programs (1 PI, 2 Co-PI), and others using facilities such as the NASA Infrared Telescope Facility, Gran Telescopio Canarias, and Gemini Observatory.

Telescope time awarded as PI:

- 57 hr with IRTF/SpeX
- 3 night with MMT/Hectospec
- 1 hr with CT-4m/DECam
- 7 hr with GTC/OSIRIS
- 10 hr with SDSS-IV/APOGEE-2
- 12 nights with OAN-SPM/Echelle
- **20 hr with JWST MIRI as PI (Cycle 3 GO 5474).**
- **113 hr with JWST MIRI as co-PI (Cycle 5 GO 11448).**
- **Survey program with JWST MIRI as co-PI (Cycle 2 Survey 3930).**

Academic and Community Service (PDF)

Panel reviewer for NASA (1), referee for academic journals (13), member of graduate thesis committees (1), reviewer for telescope time allocations (4), SOC member (4) and session chair (5) at conferences, and additional departmental and community service. Selected examples:

- 2026 **Referee** for Nature and Nature Astronomy (2 papers).
- 2026 **Panel Reviewer** for NASA Exoplanets Research Program (XRP).
- 2022–2026 **Referee** for the American Astronomical Society (AAS) (6 papers).
- 2024–2026 **Session Chair** at the 243rd, 245th, and 247th AAS meetings.
- 2022–2026 **Referee** for Astronomy & Astrophysics (4 papers).
- 2023 and 2024 **External Expert Reviewer** for JWST Cycle 3 and Cycle 4.

Supervision and Mentorship Experience (PDF)

Supervisor/co-supervisor of 2 graduate, 11 undergraduate, and 12 high-school students. Selected examples:

- 2026–present **Supervisor** of undergraduate student Luis Diego Lopez Perez, Universidad de San Carlos, Guatemala, through the CENCA BRIDGE program.
- 2026 **Supervisor** of undergraduate student Melanie Encinas Mendoza, Virginia Tech, through TEAM-UP Together Undergraduate Research Fellowship at AMNH.
- 2024–2026 **Supervisor** of 3 REU students at AMNH.
- 2022–2026 **Supervisor** of 11 high-school students in the Science in Research Mentoring Program at AMNH.
- 2023–2024 **Supervisor** of master's student Alexandra Baldelli, Columbia University (*now Ph.D student at University of Delaware*).
- 2022–2024 **Co-supervisor** of master's student Rafael Bertolotto, Universidad de la República, Uruguay (*now Ph.D student at University of Arizona*).
- 2022–2024 **Co-supervisor** of undergraduate student Shereyn Alejandro Marchán, CUNY (*now Ph.D student at CUNY*).
- 2023–2024 **Supervisor** of undergraduate student Jolie L'Heureux, Columbia University (*now Ph.D student at CUNY*).

Teaching Experience (PDF)

Lectured graduate-level courses on Exoplanets, Brown Dwarfs, and the Initial Mass Function at different institutions, and served as instructor for workshops on data analysis, programming, and stellar astrophysics. Selected examples:

- Jul. 2025, Jul. 2026 **Instructor** for workshops on modeling observations and deriving fundamental properties of extrasolar worlds using the SEDa code at Trinity College Dublin, The University of Brownsville, TX; San Francisco, CA, USA
- Mar. 2025 **Lecturer** on brown dwarf and gas giant planet atmospheres, formation, and evolution for graduate students at Columbia University. New York, NY, USA

Fall 2024 **Instructor** for the “Introductory Computer Programming” course in the Science Honor
New York, NY, USA Program for high school students at Columbia University.
Summer 2024, 2025 **Instructor** for nine MAT residents at the American Museum of Natural History.
New York, NY, USA

Outreach and Engagement (PDF)

Participation in 79 outreach, community engagement, and media initiatives.

Selected activities:

2022–present **Mentor** of citizen scientists in the [NASA's Backyard Worlds: Planet 9](#) project.
New York, NY, USA
2026 **Leader and organizer** of the project [Stars Beyond Barriers](#) to support students from
New York, NY, US underrepresented groups to pursue STEM.
Summer 2025 **Spanish translator** for the Hayden Planetarium show “Encounters in the Milky Way
New York, NY, USA at the American Museum of Natural History”.
2023–2025 **Facilitator** of DEI in STEM training sessions for a total of ~150 high school students
New York, NY, USA at AMNH.
Aug. 05–06, 2024 **Leader and organizer** of the project “[Bringing Astronomy Closer to Indigenous Women
Zacatecas, Mexico in Rural Communities in Mexico](#)” as part of WGAP by NA-ROAD.
Apr. 2024 **Volunteer speaker** on astronomy-related topics at the Columbia University’s Astronomy
New York, NY, USA in Prisons Program for ≈20 women at MDC Brooklyn.
2023–2024 **Translator** of the [Machine Learning for Physics and Astronomy](#) course into Spanish at
New York, NY, USA CCA Flatiron Institute.

Memberships

Active Memberships

2022–present Member of 21 JWST Cycle 1–5 programs
2022–present Member of the NASA’s Backyard Worlds: Planet 9 citizen science project
2022–present Member of the American Astronomical Society (AAS)

Technical Skills

Projects

[SEDA](#) Developer of the Spectral Energy Distribution Analyzer (SEDA) python package for
forward modeling and empirical analyses of observations for ultracool objects.

Computer Skills

High PYTHON, Jupyter Notebooks, Git, Github, IDL, IRAF, DS9, TOPCAT, STILTS,
VOSA, Vizier, Overleaf, L^AT_EX, Linux, UNIX commands, Vi/Vim, JWST pipeline
Intermedium Fortran, Aladin, Gnuplot, WCSTools

Languages

Spanish **Mother tongue**
English **Fluent**

Contact Information of Professional References

Dr. Jacqueline Faherty
Associate Curator
Department of Astrophysics
American Museum of Natural History
Phone number: +1 201 694 0807

E-mail: jfaherty@amnh.org

Current supervisor and active collaborator since 2022

Dr. Stanimir Metchev

Professor (Physics and Astronomy)

Department of Physics & Astronomy,

The University of Western Ontario

Phone number: +1 519 661 2111, 88438

E-mail: smetchev@uwo.ca

Previous postdoc supervisor and active collaborator since 2019

Dr. Johanna Vos

Associate Professor in Astrophysics

Trinity College Dublin,

The University of Dublin

Phone number: +353 83 379 5056

E-mail: Johanna.Vos@tcd.ie

Close and active collaborator since 2022

Dr. Kelle Cruz

Associate Professor

Department of Physics and Astronomy,

Hunter College, City University of New York

Phone number: +1 917 837 9748

E-mail: kelle.cruz@hunter.cuny.edu

Close and active collaborator since 2022

Dr. Juan J. Downes

Associate Professor

Department of Astronomy

Universidad de la República

Phone number: +598 25 258 624

E-mail: jdownes@fcien.edu.uy

Former PhD advisor and active collaborator
