

Genaro Suárez

Research Talks

(as of September 19, 2026)

Forty-nine research talks (24 invited presentations) at national and international conferences and seminars.

Press Conferences

Jan. 09, 2024 **(1).** Press conference **Extrasolar Worlds Exhibit Exotic Sandy Clouds at the**
New Orleans, LA, **Equator**, 243rd AAS Meeting, New Orleans Ernest N. Morial Convention Center.
USA

Invited Talks

Conferences

Jun. 06, 2026 **(4).** “Cloudy Extrasolar Skies in the JWST Era and their Dependence on Atmospheric
Phoenix, AZ, USA Properties”, 247th AAS Meeting, Phoenix Convention Center.

Jun. 26, 2025 **(3).** **Review talk:** “What Observations Have Taught us About 4D Extrasolar Atmo-
Cork, Ireland spheres?”, 2025 European Astronomical Society Annual Meeting, University College
Cork.

May 30, 2024 **(2).** “Explaining the Diversity of Cold Exoworlds with JWST”, 2024 New York Area
New York, USA Exoplanets Meeting, Flatiron Institute.

Jan. 29, 2024 **(1).** “Explaining the Appearance of Extrasolar Worlds”, ExoNYC Meeting, Flatiron
New York, USA Institute.

Seminars

Nov. 09, 2026 **(20).** “Understanding Substellar Atmospheres Through Silicate Clouds”, Yale Univer-
New Haven, CT, USA sity.

Jun. 25, 2026 **(19).** “Understanding Substellar Atmospheres Through Silicate Clouds”, Tsung-Dao
Shanghai, China Lee Institute.

May. 19, 2026 **(18).** “Understanding Substellar Atmospheres Through Silicate Clouds”, Space Tele-
Baltimore, MD, USA scope Science Institute.

Apr. 06, 2026 **(17).** “Explaining the Appearance of Extrasolar Worlds”, Physics & Astronomy, Vassar
Poughkeepsie, NY, College.
USA

Mar. 11, 2026 **(16).** “Explaining the Appearance of Extrasolar Worlds”, Department of Physics and
Piscataway, NJ, USA Astronomy, Rutgers University.

Oct. 28, 2024 **(15).** “Explaining the Diversity of Extrasolar Worlds”, Steward/LPL Origins Seminar.
Virtual

Jul. 01, 2024 **(14).** “Explaining the Diversity of Cold Exoworlds with JWST”, California Institute of
Pasadena, CA, USA Technology.

Apr. 02, 2024 **(13).** “Explaining the Appearance of Extrasolar Worlds”, Amherst College.
Amherst, MA, USA

Mar. 21, 2024 **(12).** “Explaining the Appearance of Extrasolar Worlds”, Columbia University.
New York, USA

- Dec. 18, 2023 **(11).** “Entendiendo la Diversidad de las Atmósferas Subestelares”, Universidad de la Montevideo, Uruguay República.
- Aug. 25, 2023 **(10).** “Physical Properties and Chemistry of Silicate Clouds in Extrasolar Atmospheres”, Virtual School of Mathematical and Physical Sciences, Macquarie University.
- Jul. 04, 2023 **(9).** “Silicate Clouds in Extrasolar Atmospheres: Equatorial Latitudes are Cloudier”, Edinburgh, UK Royal Observatory, The University of Edinburgh.
- Aug. 24, 2022 **(8).** “Silicate Clouds in Extrasolar, Ultracool Atmospheres”, Institute of Astronomy, Ensenada, BC, UNAM. Mexico
- Jun. 14, 2022 **(7).** “Emergence and Sedimentation of Silicate Clouds in L Dwarfs, and Analysis of the Full Field Dwarf Spectroscopic Sample”, Max Planck Institute for Astronomy.
- Feb. 16, 2021 **(6).** “An Accurate Look at the L-to-T Spectral Type Transition”, NRC Herzberg Virtual Astronomy and Astrophysics Research Centre.
- Apr. 08, 2019 **(5).** “System IMF and Dynamics of 25 Ori”, California Institute of Technology. Pasadena, CA, USA
- Mar. 14, 2019 **(4).** “System IMF and Dynamics of 25 Ori”, Radio Astronomy and Astrophysics Morelia, Mich, Institute, UNAM. Mexico
- Apr. 18, 2018 **(3).** “Towards a Complete Study of the System IMF and Early Kinematics Evolution of the 25 Orionis Stellar Group”, Institute of Astronomy, UNAM. Ensenada, BC, Mexico
- Nov. 03, 2016 **(2).** “Photometric Determination of the System Initial Mass Function of the 25 Orionis Mérida, Venezuela Group”, Centro de Investigaciones de Astronomía.
- Oct. 19, 2016 **(1).** “Towards a Complete Study of the IMF and Early Kinematics Evolution of the 25 Mérida, Venezuela Orionis Stellar Group”, Centro de Investigaciones de Astronomía.

Contributed Talks

- Jul. 28, 2026 **(20).** “Silicate Clouds as Drivers of Spectral Diversity in Ultracool Atmospheres”, Pacific Grove, CA, Charting Substellar Worlds conference at Asilomar. USA
- Jun. 18, 2026 **(19).** “Silicate Clouds as Drivers of Spectral Diversity in Ultracool Atmospheres”, Cool Tokyo, Japan Stars 23, TOC Ariake.
- May. 15, 2026 **(18).** “Spectral Energy Distribution Analyzer (SEDA) for Forward Modeling and New York, NY, USA Empirical Analysis of Ultracool Objects”, III New York Area Exoplanets Meeting, American Museum of Natural History.
- Apr. 29, 2026 **(17).** “Identifying Cloudy Extrasolar Skies with JWST/MIRI Imaging”, Brown Dwarf Newark, DE, USA to Exoplanet Connection Conference, University of Delaware.
- Jun. 07, 2026 **(16).** “Predicted Near- to Mid-infrared Spectral Signatures of a Cold Brown Dwarf Phoenix, AZ, USA with Potential Auroral Heating”, 247th AAS Meeting, Phoenix Convention Center.
- May 22, 2025 **(15).** “Cloudy Extrasolar Skies in the JWST Era”, 2025 New York Area Exoplanets New York, USA Meeting, Flatiron Institute.

- Jan. 15, 2025 **(14).** "Spectral Energy Distribution Analyzer (SEDA) for Forward Modeling of Ultracool Objects", 245th AAS Meeting, Gaylord National Resort & Convention Center.
National Harbor, MD, USA
- Jun. 28, 2024 **(13).** "Explaining the Diversity of Cold Exoworlds with JWST", Cool Stars 22,
San Diego, CA, USA University of California San Diego.
- Jan. 09, 2024 **(12).** "Equatorial Latitudes in Extrasolar Atmospheres are Cloudier", 243rd AAS
New Orleans, LA, Meeting, New Orleans Ernest N. Morial Convention Center.
USA
- Dec. 08, 2023 **(11).** "Understanding the Diversity of the Coldest Extrasolar Atmospheres with JWST",
Puerto Natales, Chile Open Problems in the Astrophysics of Gas Giants, Hotel Remota.
- Nov. 28, 2023 **(10).** "Complexity of Dust Clouds in Extrasolar Atmospheres", XVII Latin American
Montevideo, Uruguay Regional IAU Meeting, Intendencia de Montevideo.
- Jun. 30, 2023 **(9).** "Equatorial Latitudes in Extrasolar Atmospheres are Cloudier", Exoclimates VI, The
Exeter, UK University of Exeter.
- Jan. 10, 2023 **(8).** "Gravity-dependent Sedimentation of Dust Clouds in Ultra-cool Atmospheres",
Seattle, WA, USA 241st meeting of the American Astronomical Society, Washington State Convention
Center.
- Jul. 04, 2022 **(7).** "Emergence and Sedimentation of Silicate Clouds in Substellar Atmospheres Using
Toulouse, France Spitzer IRS Spectra", Cool Stars 21, Pierre Baudis Convention Centre.
- Oct. 08, 2021 **(6).** "Understanding the Origin of the Mass Spectrum in Stellar Associations", LXIV
Virtual Congreso Nacional de Física.
- Oct. 21, 2019 **(5).** "Initial Mass Function of 25 Orionis down to the Planetary-Mass Domain", Brown
Newark, DE, USA Dwarf to Exoplanet Connection Conference, University of Delaware.
- Aug. 09, 2018 **(4).** "Structure and Star Formation History of the Orion Complex", VII Reunión de
Zacatecas, Zac., Estudiantes de Astronomía, Consejo Zacatecano de Ciencia, Tecnología e Innovación
Mexico (COZCyT).
- May. 14, 2018 **(3).** "System IMF of the 25 Orionis Stellar Group", Interstellar: The matter, Grand
Cozumel, Yuc., Park Royal Cozumel.
Mexico
- Oct. 11, 2017 **(2).** "Photometric Determination of the System IMF of the 25 Orionis Stellar Group",
Monterrey, NL, XXVI Congreso Nacional de Astronomía, CINTERMEX.
Mexico
- Oct. 04, 2016 **(1).** "Towards a Complete Study of the IMF of the 25 Orionis Stellar Group", XVII
Cartagena, Colombia Latin American Regional IAU Meeting, Intendencia de Montevideo.

Lightning Talks

- Jun. 06, 2026 **(5).** "Predicted Near- to Mid-infrared Spectral Signatures of a Cold Brown Dwarf with
Phoenix, AZ, USA Potential Auroral Heating", 247th AAS Meeting, Phoenix Convention Center.
- Nov. 14, 2025 **(4).** "JWST Observations of Brown Dwarfs", Pizza Lunch at Columbia University.
New York, USA
- Mar. 11, 2025 **(3).** "Diversity of Brown Dwarf Atmospheres", Physical Sciences Jamboree, AMNH.
New York, USA

May 30, 2018 **(2)**. “Towards a Complete Study of the System IMF and Early Kinematics Evolution
Ensenada, BC, of the 25 Orionis Stellar Group”, Jamboree at Institute of Astronomy, UNAM.
Mexico

Jul. 28, 2014 **(1)**. “Towards a complete study of the 25 Ori Group”, SDSS-III and SDSS-IV
Park City, Utah, USA Collaboration Meetings hosted by the University of Utah.
