

Genaro Suárez

Teaching Experience

(as of September 19, 2026)

Lectured graduate-level courses on Exoplanets, Brown Dwarfs, and the Initial Mass Function at different institutions, and served as instructor for workshops on data analysis, programming, and stellar astrophysics.

Lectures

- Mar. 01–12, 2027 (5). **Lecturer** on “Brown Dwarf Atmospheres” for undergraduate students and **research supervisor** for a student group project at the Universidad Industrial de Santander, Colombia
- Mar. 13 2026 (4). **Lecturer** for MAT students on “Search for Life in the Universe” at the Hayden Planetarium, American Museum of Natural History.
- Feb. 13 2026 (3). **Lecturer** for MAT students on “The H-R Diagram” at the American Museum of Natural History.
- Mar. 2025 (2). **Lecturer** for the graduate-level course “Brown Dwarf and Gas Giant Planet: Atmospheres, Formation, and Evolution” at Columbia University.
- Sep. 2021, Feb. 2019 (1). **Lecturer** for the graduate-level course “Initial Mass Function” at the National Autonomous University of Mexico (UNAM).

Workshops

- Jul. 23–24, 2026 (6). **Instructor** for a workshop on Modeling SEDs and Deriving Fundamental Properties of Extrasolar Worlds using the SEDA code at San Francisco State University.
- Jul. 21–22, 2026 (5). **Instructor** for a workshop on Measuring the Fundamental Properties of Extrasolar Worlds using the SEDA code, as part of the Summer 2026 Undergraduate Space Science Experience at The University of Texas Rio Grande Valley.
- Jul. 2025 (4). **Instructor** for a workshop on Empirical Analysis and Modeling of Observational Data using the code SEDA at Trinity College Dublin.
- Fall 2024 (3). **Instructor** for the “Introductory Computer Programming” course in the Science Honor Program for high school students at Columbia University.
- Jun. 2019 (2). **Instructor** for a workshop on deriving fundamental parameters of low-mass stars at Institute for Radio Astronomy and Astrophysics, UNAM.
- Feb.–Sep. 2012 (1). **Instructor** for a General Astronomy Workshop at Instituto de la Juventud Jerezana.

Instructor

- Summer 2025 (3). **Instructor** for a group of five MAT residents at the American Museum of Natural History.
- Summer 2024 (2). **Instructor** for a group of four MAT residents at the American Museum of Natural History.
- May 2010–May 2012 (1). **Teaching Assistant in Physics** at Universidad Autónoma de Zacatecas.
